

Energy Solutions

Business & Industry

Press Release - July 15, 2006

RHT signs with Bonneville Power Administration to provide energy conservation technical support.

RHT Energy Solutions (RHT) is pleased to announce our acceptance as a member of the Bonneville Power Administration (BPA) "Technical Support Pool Master Agreement Consultants". We are now contracted to provide technical support to industrial customers in the BPA service territory. RHT also provides program delivery and technical services to customers in the PP&L and PGE territories for the Energy Trust of Oregon.

At BPA, an energy reduction project usually starts with preparation of a "Technical Services Proposal" (TSP). Eligible services for TSPs include (but are not limited to):

- Energy Audits
- Feasibility Studies
- Plant Assessments
- Conservation Project Identification
- Implementation Project Proposal Development
- Measurement and Verification Tasks

Please contact RHT for details on how we can help with your energy reduction project.

Please call (541) 770-5884 or send email to info@rhtenergy.com for complete information.
