

Buzz Thielemann Is a One-Man Power Plant

He's helped Oregon businesses save enough electricity to power 7,500 homes.

As the powerhouse behind RHT Solutions, Buzz Thielemann has represented Energy Trust of Oregon's energy efficiency and renewable power programs to industrial businesses around the state.

Since 2003, he and his team have helped more than 50 Oregon wood products companies and other manufacturers trim energy costs and improve efficiency with nearly \$9 million in Energy Trust incentives.

We congratulate Buzz on being chosen as a Rainmaker finalist. His dedication helps Oregon businesses thrive and moves us closer to energy self reliance.
